

# TruSystem™ 3000 Mobile Operating Table

Flexibility without compromise

Enhancing outcomes for  
patients and their caregivers:

**Hill-Rom**

# Do more with less

With the TruSystem™ 3000 OR Table, you are now able to conduct more diverse surgeries while enhancing caregiver efficiency to ensure high patient throughput in your hospital – and all this without stressing your budget.

With its built-in Trumpf Medical expertise, the TruSystem 3000 OR Table is the ideal option for quality surgical care in your OR.

## Benefits at a glance:

- **Shaping efficiency** through ergonomic product design
- **Simple to complex patient positioning** with one universal OR Table solution
- **Optimal performance** due to reduced maintenance costs and high utilization
- **Competitive specifications** to fulfil your needs

### Consistent User Interfaces

The intuitive remote control and column control panel use the same icons, colors, and symbols which have been extensively field tested to ensure simplicity, efficiency, and safety. Simply reverse the orientation of the patient via the keypad on the table's column.

# Shaping Efficiency

Every day, you have to manage complex tasks. Ergonomically designed medical equipment can support you in fulfilling your daily tasks efficiently and safely, while contributing to the surgical outcome.

## Quick Set-up

The male / female coupling point system of the TruSystem™ 3000 OR Table allows for intuitive use and enables quick set-up times. All operating elements are color coded in blue for quick access and ease of use.

## Intuitive Remote Control

The remote control, designed from the perspective of the anesthesia provider, allows intuitive utilization for the clinical team. In addition, the backlit display enhances ease of use for immediate attention in low-light surgical environments.

3

## Slim Design

The table base is designed to permit under-the-base foot placement in order to optimize surgical team ergonomics and provide exceptional patient access. In addition, the narrow column allows for C-arm accessibility during intraoperative imaging.

# Patient Positioning – It's More Than Just Comfort

Positioning patients properly on the operating table is critical to providing the best care possible and protecting against complications such as pressure ulcers and nerve damage.

The TruSystem™ 3000 OR Table comes with an extensive range of patient positioning components and accessories to serve a broad variety of surgical procedures.

## General Surgery

Fully motorized functions of the column and tabletop and a broad range of components and accessories allow for exceptional patient positioning and surgical site access.

## Bariatric Surgery

With a patient weight capacity of 270 kg (595 lbs), the TruSystem™ 3000 Surgical Table can accommodate a variety of individual patient and surgical needs including bariatric procedures.

## ENT, Ophthalmology & Neurosurgery

A broad range of neurosurgical and spine components and accessories can be attached to the surgical table, such as the DORO headrest system or Wilson frame.

## Traumatology & Orthopedics

The TruSystem™ 3000 Surgical Table's universal side rail accepts various orthopedic components and accessories, such as the Allen® Deluxe Arthroscopic Legholder System or the Allen® Lift Assist® Beach Chair from Allen Medical.

**Allen**™ A part of the Hill-Rom® Corporation.

Allen offers a wide range of orthopedic products including knee, beach chair and lateral positioners, arm and hand tables and more. Using innovative technologies like Lift-Assist™ Beach Chair, Allen provides

simple, secure orthopedic positioning solutions for the OR.

For more information, visit:  
<http://www.allenmedical.com/shop/orthopaedic>

## Cardiac & Vascular Surgery

Intraoperative imaging: Table height, narrow column and optimal head-to-foot longitudinal slide allow for free C-arm access and large x-ray window regardless of patient orientation.

## Gynecology & Urology

# Minimum Maintenance, Optimal Performance

The TruSystem™ 3000 Surgical Table ensures increased productivity, ease of use, long-term reliability and patient safety.

Service and maintenance parts of the OR table base, column, and tabletop are easily accessible. Authorized service personnel are readily available if service or maintenance is required, ensuring minimal disruption to your OR schedule and a reduction in overall cost.

The TruSystem™ 3000 Operating Table meets the most recent international regulatory requirement IEC/EN 60601-1 and 60601-2-46 concerning the basic safety and essential performance of operating tables. The TruSystem™ 3000 OR Table, therefore, satisfies the highest requirements for safety, reliability and usability.

## Technical Specifications

TruSystem™ 3000 Mobile Operating Table	
Height adjustment	66cm - 103cm (± 1cm) / 26" - 40.6" (± 0.4")
Trendelenburg / reverse Trendelenburg	± 30° (± 2°)
Tilt	± 25° (± 2°)
Zero Position	Motorized leveling of all sections
Longitudinal slide	34cm (± 1cm) / 13.4" (± 0.4") (head side: 19.5cm / 7.7", foot side: 14.5cm / 5.7")
Adjustment range joint back section*	+ 80° / - 60° (± 2°)
Adjustment range joint leg section	+ 80° / - 92° (± 2°)
Tabletop overall (L x W)*	201cm x 60cm (79" x 23.6")
Net table weight	230 kg / 507 lbs.
Max. patient weight	270 kg / 595 lbs.
